

COLLABORATING ORGANIZATIONS

ABOUT SF HIV FOG

Background

In May 2015, a group of San Francisco HIV Frontline workers came together to discuss how the Affordable Care Act (ACA) would impact clients and frontline workers. The creation of SF HIV FOG grew out of this meeting.

Our Mission Statement

San Francisco HIV Frontline Organizing Group (SF HIV FOG) is a grassroots collaboration between community-based HIV service organizations and representatives of the San Francisco Department of Public Health. It provides training and professional networking opportunities for frontline workers in San Francisco. (e.g., social workers, client advocates, money managers, mental health clinicians, navigators, and benefits eligibility workers, etc.) to improve inter-agency collaboration and delivery of services to people living with HIV.

San Francisco HIV Frontline Organizing Group

A collaboration between San Francisco organizations serving people living with HIV. We strive to support HIV Frontline-workers through trainings, resource sharing and professional development opportunities.
